

Animal Safari

Following on from the children's interest in wild animals, the children at Riverview Early Learning Centre discussed what animals they might see on a safari.

Posters of the animals were positioned around the outdoor play area and the children were guided through a range of fundamental movement skills, such as jumping over rocks, as they travelled on their safari.

Educators joined in with the children, and gave every child lots of positive encouragement and the opportunity to practice all of the skills. The children really enjoyed the whole experience.
